System Requirements:

To be able to run the game properly you will need a relatively recent graphic card, a PC with at least a 2Ghz (or faster) processor and a sound card or sound-system with stereo speakers. The game needs at least 9.5GB of hard disk space (although some missions require even more space) For using the first mission we require at least 6.4 GB of RAM. The game has been tested on a Lenovo A7000 running Linux Kalyway (Version 4.6) and running on a Windows XP machine.
