I tried to change the string value of B to "First" in the line let b = s"A \$B B" but it didn't work. I know this may seem like an obvious question but I couldn't find any documentation of this behaviour anywhere. A: It will work with String interpolation: val s = "foo" val s2 = s"B \$s" // val s2 = "B foo" ES News email The latest headlines in your inbox twice a day Monday - Friday plus breaking news updates Enter your email address Continue Please enter
