Code example: from collections import namedtuple Point = namedtuple("Point", "x y") class Box(Point): def \_\_init\_\_(self, x, y): self.x = x self.y = y def \_\_str\_\_(self): return "%s.%s" % (self.x, self.y) def render(x, y): return "Rendered square at (%d, %d)" % (x, y) Box.render = render print(Box("x", 5)) print(Box.render(5, 3)) print(Box("x", 5).render(3,

[Player] "The game is full of things you don't see in most RPGs, not only is the world and gameplay unique, but it's also filled with shiny bits of technology that make it feel more like a sci-fi/fantasy action adventure." [GameWatch] "Yet what sets this game apart from others in the genre is the fact that it's a full-featured action RPG, with the action oriented gameplay of a game like "X-Com" and the storytelling depth of a game like Telltale's "The Walking Dead."" [The Verge] "As you explore the world, you'll have plenty of time to collect treasure and upgrade yourself to further your cause of good, which is never a bad idea." [IGN] "The Elden Ring comes from a developer known for its acclaimed strategy game, the Endless Legend, and it reflects its developer's experiences with RPG games. Those experiences have led it to deliver a unique fantasy RPG that feels exhilarating, and it's something you can't find in any other game." [GameReMarks] "All the elements that make for a good fantasy role-playing game - varied characters, quests, loot, etc. - are there, and are all executed perfectly. However, it's really the combat that makes the game what it is, and the great combat mechanics never disappoint." [FanSite.ru] bff6bb2d33

## **What's new in Elden Ring:**

### **IN THE BEST INTEREST OF THE PLAYER**

**The development team is aware of the anime fans to whom this title is dedicated, and wishes to take the opportunity to reveal the following information.**

**Risen: Shards of the Past is not a horror game. As far as the designer's intention is concerned, it aims to establish the fantasy role playing as entertainment that will be enjoyed by all of our fans.**

**Also, the game deliberately includes Risen in order to strengthen the fantasy role playing games.**

**Because of the play style of the RPG genre and by considering the attractiveness of the large crowds attending the player floor, we have been able to create the game freely from the perspective of those who want to enjoy the characteristic elements of the RPG genre.**

**We simply did not want to sacrifice the fantasy and the magic. Therefore, as far as such elements as making monsters scary, cast a spell, or the like are concerned, we implemented them with affection.**

**We added these elements in thinking that such elements can be enjoyed regardless of sex or age, and we made these aspects universal.**

**We hope that such details will impact the game favorably.**

**Thank you for your interest in The Elder Scrolls Online: Risen - Shards of the Past!**
